

Year 3 Newsletter

Autumn 1—2024/2025

Notices and Reminders

Welcome to year 3!

Our PE day is **Wednesday** Please make sure that you come to school in your PE kit on that day. Reading books and reading records should be in school every day, as well as water bottles and coats (if necessary).

If you decide to bring a snack in, please ensure that it is fruit or bread sticks only.

If you have a painting apron or an old shirt that can be used as one, please bring this to school and put it in your locker for art lessons.

Key dates

Tuesday 1st October

Y3 Meet the teacher (3.30pm)

Tuesday 22nd October

Parents evening (3.40pm – 6.30pm)

Thursday 24th October

Parents evening (3.40pm – 6.30pm)

Parents evening slots will be available to book on Scopay. Reminders will be sent nearer the date.

Reading

This half term in reading, the first text is 'The Iron Man' by Ted Hughes. The following text is 'The Fastest Boy in the World' by Elizabeth Laird. The children will continue to follow the text being read to them with their finger, as well as practise reading aloud to develop their fluency. They will also use evidence from the text to answer questions.

Writing

This half term in writing, the children will start by recapping key learning from year 2 using several picture prompts to inspire. They will then start their first unit - writing a journey story. The children will first immerse themselves in a text through orally retelling the story. They will then use their deep knowledge of the story structure to create their own version. Throughout the cycle, the children will be exposed to a range of skills that will help them develop their writing.

Maths

In maths, the children will continue to build upon their place value knowledge, extending to 3-digit numbers. They will become familiar with the size of each number, the value of each digit, partition numbers and use number lines. They will then move onto addition and subtraction, beginning with applying known number facts to larger numbers and begin to learn formal methods to solve calculations.

Throughout the term, they will solve problems and answer reasoning questions.

Science

This half term in science, the children will learn about skeletons and muscles. They will learn about different types of skeletons in all animals before focusing on the human body. They will look at different muscles and the function of different bones in our body.

Towards the end of this term they will look at what nutrients they need to grow and keep their bodies healthy.

History

This half term in history, the children will be learning about some of the key changes which occurred between the Stone Age and the Iron Age. They will be finding out how archaeologists use clues from artefacts and cave paintings to understand what life was like. They will also be

comparing the Paleolithic, Mesolithic and Neolithic eras.

Art

This half term in art, the children will learn the techniques and skills required for observational drawing. They will learn how to recognise abstract and observational art while studying the art of Henri Matisse. They will complete an observational drawing of an elephant using graphite pencil and then they will study Matisse's 'The Nightmare of White Elephant' to inspire their own abstract piece.

PE

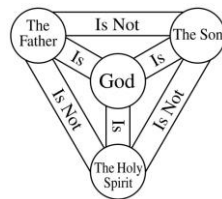

In P.E this half term, the children will focus on invasion games. They will practise the skills of running, jumping, throwing and catching both in isolation and in competitive netball games. They will also be looking at attacking and defending.

RE

The Big Question in RE this half term is 'What is the Holy Trinity?' The children will learn how Christians believe that God is revealed to them in three ways – God the Father, God the Son and God the Holy Spirit – yet remains one God.

They will also explore how all denominations of Christianity have the same principle beliefs including The Holy Trinity, Bible and resurrection of Jesus.

PSHE

This half term in PSHE, the children will learn how to recognise their own feelings and celebrate what makes each of them unique. They will also learn about the importance of understanding what mental health is and

how to look after their mental health using a range of strategies. They will learn that it is normal to experience a range of emotions.

French

This half term, the children will begin with looking at where French is spoken across the world. They will learn about the geography and culture of France, including where it lies on a map and the tricolore. They will then learn greetings, the numbers from 1-10 and the colours before moving onto looking at adjectives.

Suggested books for reading
